TALK

Gilad Atzmon will elaborate on some aspects of controlled opposition and the prospect of dissent. The workshop will include a dynamic overview of the problematic topic from different perspectives: cultural, political, ideological, popular culture and so on.

Gilad will explain why Anti-Zionism has failed to stop Zion and why the Anti-War movement hasn't stopped a single war. Why is anti-capitalism funded by Wall Street? And why does truth need a movement? All these problematic issues must be addressed. The time is ripe to unveil the last piece in the puzzle.
